

Tone

That's where the Victrola is pre-eminent

The Victrola brings to you the pure and varied tones of every musical instrument, and the beauty and individuality of every human voice—all absolutely true to life.

Such fidelity of tone was unknown before the advent of the Victrola—the first cabinet talking-machine; and this pure and lifelike tone is exclusively a Victrola feature.

"Why exclusive with the Victrola?"

Because of the patented Victrola features, which have been perfected after years of study and experiment:

- "Goose-neck" sound-box tube.
- Concealed sounding-boards and amplifying compartment of wood.
- Modifying doors.
- Victor system of changeable needles.

It is the perfection of every part, and its perfect combination with all other parts, that gives the Victrola its superior tone—that makes the Victrola the greatest of all musical instruments.

There are Victrolas in great variety from \$15 to \$200, and we gladly demonstrate them and play any music you wish to hear.

Modifying doors. Sounding boards. "Goose-neck" tube and tone arm. System of changeable needles.
